

Hapag-Lloyd Inland

# Our green option for truck services

Elevate your journey with HVolution-powered trucks and immerse yourself in the potency of Eni's sustainable fuel crafted from waste and non-food crops. This groundbreaking biofuel, employed by our reliable trucking partner, plays a pivotal role in significantly slashing greenhouse gas emissions within the transport sector. Choose a truck that not only propels you forward but also propels sustainability into the future.

## Our Offer

- Embrace environmental responsibility and cut your carbon footprint with our innovative truck solution
- Opt for two impactful Inland Emission Avoidance choices
- Offset a substantial portion or the entirety of CO2 emissions from inland transport with our 40% or 100% "Truck Green" emission avoidance packages
- Feel confident, as both options are certified for transparency and accountability
- Count on our dedicated Inland Sales Team for detailed information and expert assistance in making an informed decision

## Your Benefits

- Minimize your carbon footprint with our cutting-edge solutions
- Embrace HVolution and play an active role in the fight against climate change
- Exercise control over your shipment's carbon emissions with our customizable options
- Unlock all-inclusive CH benefits: no detentions, on-wheel charges, or drop-off fees
- Leverage online tools like Quick Quotes and Navigator for swift quotes, a seamless booking process, and easy tracking of your shipments from anywhere, at any time
- Receive an omission CO2 certificate on a quarterly basis
